**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Afternoon UV levels will be high in the strong July sunshine, so sun protection is recommended. Also, pollen levels will be very high, with it being peak grass pollen season. Hay fever sufferers are recommended to take precautions

Forecast for Wednesday 06 Jul 2022

Weather: Rather like Tuesday, the early hours of Wednesday will be cloudy, with associated hill fog and drizzle. It may remain rather cloudy for much of the day but there is a chance of some sunny spells in the afternoon.

Maximum wind: North-westerly 20 mph with gusts of 30 mph on the summits in the afternoon.

Chance of cloud-free hill tops above 800m: Between midnight and 10:00, and after 21:00: 30% with low cloud covering hills 300m above sea level. Between 10:00 and 21:00 60% with patchy low cloud down to 400m above sea level.

Low Cloud and visibility: Between midnight and 12:00, and after 21:00: 30% with low cloud covering hills above 300m. Between 12:00 and 21:00 60% with patchy low cloud down to 400m above sea level.

Temperature: **Valleys:** 10c at dawn, rising to 19C in the afternoon.
At 800m: 7C at dawn, rising to 10 C in the afternoon.
Freezing level: Well above summits.
